Description:	Joseph Addison said that "Reading is to the mind what exercise is to the body". This project aims at developing linguistic skills via reading books. It focuses on reading comprehension and fosters creativity and imagination. Project activities are planned to be done collaboratively, students will create new digital stories inspired by the ones they have read. The project aims at developing 21st century skills such as communication, social and digital skills.
Aims:	The aim of the project is to promote reading and develop reading comprehension skills. It also focusses on development of writing skills, imagination, creativity and 21st century skills.
Expected Outcomes:	Throughout the project students will have read several books in English and created worksheets and activities. They will have created ebooks with new digital stories. They will have improved their language skills and 21st century skills.
Procedural Plan:	1. Introduction - students introduce themselves, e-Safety, project netiquette 2. Our country, town, school - collaborative writing 3. Reading - part 1, national teams, preparing games and quizzes for partners 4. Christmas - traditions, making bookmarks 5. Reading - part 2, international teams, preparing games and quizzes for other teams 6. Collaborative writing - creating own stories in international teams 7. Evaluation
